## PROFILE SUMMARY

Passionate Full-Stack Web Developer with strong design and problem-solving skills. A highly disciplined and motivated person having proficiency in a wide range of front-end and back-end skills like Node, Javascript, ExpressJS, MongoDB, ReactJS, etc. Looking forward to launching a career as a Node back-end developer.

## WORK EXPERIENCE

**React Developer | Lemmecode Pvt Ltd**  
01 Sep 2025 – 30 Sep 2025 (1 Month)

- Developed and contributed to the SRG Admin Panel, a centralized web-based dashboard.
- For managing users, registrations, and projects with role-based access.
- Implemented features like real-time notifications, PDF integration.

## PROJECTS

### BUBBLE SHOOTING GAME

- Built an interactive Bubble Shooting game using React, JavaScript, and Bootstrap.
- Implemented responsive design, smooth animations, and dynamic game logic to enhance user engagement.
- Focused on performance optimization and clean UI for an improved gaming experience across devices.

### Food Cart Application

Developed a dynamic Food Cart web application with React.js showcasing product listing, cart management, and order summary.

Integrated add-to-cart, remove-from-cart, and quantity update functionalities with real-time price calculation.

Implemented state management using React Hooks (useState, useEffect) for real-time cart updates.

Created custom hooks (e.g., useCart, useProducts) to encapsulate business logic and improve reusability.
